

THE DAILY BULLETIN.

FRIDAY, APRIL 10, 1885

RICHARD GRANT WHITE died at New York on the 8th instant.

EX-MAYOR JACOBS, of Louisville, is said to be an applicant for the Austrian Mission.

The Democrats made a clean sweep at Madison, Wis., and a Democratic Mayor was elected at Kansas City.

EX-CONGRESSMAN VAN ALSTINE, of New York, says President Cleveland's policy will receive in that State.

GENERAL FITZHUGH LEE is prominently named for the office of United States Marshal for the District of Columbia.

No change for the worse is reported in the condition of General Grant and it is probable he may live for several weeks yet.

LEADING Illinois Democrats assure General Black that he can be elected to the Senate from that State if he will enter actively in the canvass.

A DESPATCH from Berne states that the United States Minister to Switzerland, Mr. M. J. Kramer, has been recalled. The despatch adds that Mr. Kramer's interference with the Swiss Government's measures against the Salvation Army people has made him generally disliked there.

ATTORNEY GENERAL GARLAND has rendered a decision in which he holds that President Johnson's pardon of General Lawton, of Georgia, removes his political disabilities and renders him eligible to the Russian Mission. General Lawton will be re-appointed and will start to St. Petersburg in a few days.

A DESPATCH from Frankfort says: It is said that a young married man and a life long Republican, a store-keeper in this district, recently wrote to Secretary Manning stating the facts, and saying if allowed to retain his office he would now vote the Democratic ticket. The Secretary caused him to be removed at once.

A STATEMENT prepared at the Treasury Department based on the latest returns show the excess of available assets over the demand liabilities of the Government to be \$16,118,092. According to this statement the cash is \$206,363,664 and the net liabilities \$189,945,572. This statement is prepared under the new form which the fractional silver coin is omitted as an asset and the \$100,000,000 reserve is treated as a liability.

The Philadelphia Record says: "The ineradicable foolishness of knaves is one of the most beautiful of natural phenomena. The New York Legislature is monkeying with a "Freedom of Worship" bill, providing for sectarian service in the State institutions, not because the Republicans approve of it, but simply because it is desired to put upon the Democratic Governor the responsibility of vetoing it, and thereby alienating some of the Irish Catholic vote. There is nothing more un-American or deplorable than the practice of lugging religion into party politics. It is gratifying to remember that bigotry or hypocrisy never yet loaded a gun that did not kick harder at the breach than it shot at the muzzle."

THE Harrisburg (Pa.) Patriot says: There was in the history of American politics no individual who had greater or more varied experience, or had a more comprehensive understanding and better judgment, than the good Democrat William L. Marcy, of New York. His connection with public affairs extended through twelve years of service under the State Government of New York and eight years as the head of the State and War Departments at Washington.

Upon a certain occasion, after the party to which he belonged had achieved a political victory, he remarked in a speech that in such cases the doctrine that "to the victors belong the spoils" should be observed. This sentiment is said to have originated with another great Democrat, Andrew Jackson. Mr. Marcy adopted it as being correct in principle, and when called to account advocating a doctrine that was calculated to demoralize public service, he said that what he meant by it was that an administration should have the right to select such officers under it as would be most in sympathy with its policy, and therefore the most reliable and helpful in carrying out the objects it had in view. This is certainly a correct construction of a doctrine that has been misrepresented and inconsiderately condemned. If the policy of a party is of any account the choice of the instruments necessary to carry it out is certainly of importance. It succeeds in an object it would be folly to expect if the work is put in the hands of agents who are hostile or indifferent.

The soundness of the doctrine of General Marcy is indisputable when reduced to the question: "Should an administration select its enemies or its friends to carry out its policy?"

THE WHEAT PLANT.

Scattering Report or Its Condition and Prospects.

CLARKSVILLE, Mo., April 10.—The wheat in this section is badly damaged and the prospect for over half a crop is poor. Your correspondent has been favored to find out the exact condition and has been in the fields in this neighborhood, and has interviewed farmers living on the railroad south of here as far as St. Peters. They all say they will not have forty per cent of last year's crop. Some have sown again and plowed their wheat lands and planted corn or oats; a few are experimenting with spring wheat. The weather has been very dry here all the spring and there has been very little rain.

LAWRENCE, Kan., April 10.—A fine wheat set in which is greatly needed by wheat but the reports concerning the prospects of this cereal in Kansas are very discouraging.

JOHNSON, Tex.—Wheat in this section promises a better yield than a few weeks ago. The fruit, vegetables and berry crop will be abundant this year.

SAN FRANCISCO, Cal., April 10.—Light improvement in the last few days have given hope to the market, but the general all sections of the state, excepting the San Joaquin valley. The state has now had all the rain necessary to insure good averages.

CALIFORNIA.—(Continued from page 1.)

HARTFORD, April 10.—At the time of the massive outrages in London, a bill designed to prevent such trouble in Connecticut was introduced in the legislature. The bill provided for a committee to be appointed to other events, but when the bill came up in the house it was promptly passed with only one dissenting voice. It prescribes a maximum fine of \$5,000 for twice yearly imprisonment for manufacturing dynamite, and like punishment for anyone having the explosive in his possession, knowing it to be used to destroy property, also like penalties for contributing money, advertising the use of or actually using dynamite for such unlawful purposes. The killing of any person with dynamite is added to the list of crimes punishable in this state with the death penalty. The bill provides for licensed dealers in such explosives, and a rigid supervision of sales for various purposes.

ONE OF THOSE "Masters of Time."

LAREDO, Tex., April 10.—Marcellus Dougherty, a desperado widely known along the Rio Grande, was shot and killed by a negro named White. Dougherty had lately killed a negro, and was a witness to the murder. White was a witness to the murder. Feeling White would cause him trouble, Dougherty resolved to kill him and sought out White for that purpose. As Dougherty approached White on the street he latter saw fire. Dougherty, however, pulled his pistol. Dougherty's heart and other parts went through his bowels. It is believed White will be released, as the killing is generally approved.

THE CONDENSER.

FRESH, FISHY, News Items Billed Down'ta the Hurried Reader.

Gen. Grant's condition remains about the same.

There is a deficiency of \$73,000 in the police fund of Cincinnati.

BASE BALL.—Chicago, 6; Cincinnati 1; Indianapolis 5, Louisville 2.

At the city election in Gallipolis the democratic elected one assessor.

At the village of New Haven, Conn., was almost entirely destroyed by fire. Loss \$5,000.

August 1st was injured by a train on the Connelton railroad at Canton, O., and will die.

Masked robbers are causing many annoyances to farmers in the vicinity of Youngstown.

Arnold Clark, an old man, was run over and fatally mangled by a train near Vincennes, Ind.

Samuel Duke, of Rising Sun, Ind., was acquitted of the charge of arson on a second trial.

Rear Admiral Marston, senior officer of the United States navy, died in Philadelphia in his ninetieth year.

John Thompson, a stock dealer of Grand Rapids, Mich., assigned. Assets and liabilities \$100,000.

Thursday, April 9, was the twentieth anniversary of the surrender of Lee to Grant at Appomattox.

A boiler in Cromwell's plow factory, Cynthiana, Ky., exploded. Two men were injured and three members of the family.

Amos, a chief car inspector in the railroad yards at Alliance, O., was fatally crushed between a car and an engine.

Edward Lambert, in Chicago, shot and killed his son-in-law, dangerously wounded his wife, and then committed suicide.

Amaziah Waller, treasurer of Dr. Graf, Logan county, O., and whose accounts show a shortage of \$4,000, is missing from home.

Frederick Greiner, the murderer of George Seeing, and convicted at Columbus, O., was paroled.

Gen. Thomas Hindman, of Georgia, is dead, aged seventy-three. He was noted as the best informed man in the state on its early history.

A piano in the Nashville (Tenn.) insurance, in a fit of anger, seized a floor-mop and killed an attendant and fellow-patient before he could be secured.

Two brothers, Arthur and Camille Thuerer, of Rising Sun, Ind., became suddenly wealthy, and the city.

Carrigan, ex-chief clerk of the navy department, has confessed to participation in the frauds which have been under investigation for several months by the author.

David Fox, a salesman for H. F. West & Co., of Cincinnati, was accidentally shot and killed at Dayton, O., while handling a pistol during the packing of his valise.

Cyrus W. Field, having completed fifty years of his life, has resigned from the executive committee of the Western Union telegraph company and the Manhattan railway company.

W. H. Carroll, the originator of miners' unions in Pennsylvania, has been killed.

Henry T. Smith, of Wilkesbarre, has sold his interest in the grocery of his late father, Geisel's grocery, opposite Second Street, Mayville, N.Y.

S. E. OLDHAM,

PLUMBER.

Sanitary Engineer, Gas and Steam-fitter Dealer in plumber's goods, Pumps, Hose, Gas Pipes, Lead and Iron Fixings, Siding, Sheet Metal, etc. No. 8 West Second Street, Mayville, N.Y.

MORE DAULTON & BRO.,

GOD INTENT.

Livery and Sale Stable.

A full line of all kinds of vehicles on hand, horses, buggies, wagons, etc. Horses kept by day, week or month. Largest and best apportioned stable in town. Satisfaction guaranteed to all who buy. Call at our stable, 202 Second Street, above Market, opposite Main Street, Mayville, N.Y.

EQUITY GROCERY.

G. W. GEISEL,

THE DAILY BULLETIN.

FRIDAY, APRIL 10, 1885.

ROSSER & McCARTHY,
Publishers and Proprietors,
To Whom Address All Communications

To plant your "seed" in fruitful soil
And make the harvest pay.
Just drop 'em in the BULLETIN,
Which calls 'round every day.

LEXINGTON boasts of a female barber.

BUTING for cash down insures many advantages, and the custom ought to be come universal.

SOMETHING novel and attractive in Mr. Louis Zech's show windows, may be looked for before long.

The next attraction at the opera house will be Fred Berger's Galley Slave Company, on Saturday, April 18th.

The funeral of Mr. John Clark will take place from the Christian Church, at Mayfield, this afternoon at three o'clock.

The Mormon Bishop Stewart and Elder J. C. Robinson, indicted for polygamy, at Phoenix, Arizona, have been sentenced to the penitentiary.

The steamer Burnside brought down a crowd of young folks from Manchester, Ohio, last night, to attend the performance at the opera house.

The receipts from the masquerade ball by the Amazon Fire Company this week amounted to about \$50. It was an enjoyable occasion and passed off smoothly.

A large audience attended the opera house last night to witness the presentation of "Only a Woman's Heart." The impersonation of "Roger" by Mr. Beers, was well received.

Dr. J. T. HENDRICK will preach at the Third street Presbyterian Church, tonight and also-to-morrow afternoon four o'clock. Everybody is invited to attend the services.

This oil well recently opened in Lawrence County continues to yield a steady supply of good lubricating oil, of which shipments have been made to a number of manufacturing towns.

Mr. JOHN BALLINGER, the jeweler, has received lately another assortment of jewelry and other articles in his line suitable for bridal or anniversary presents. You are invited to call and look at the stock.

The newly invented paper bottles are said to withstand the action of water, wine and alcohol. It is thought they can be manufactured so cheap that druggists will be able to furnish them free of charge, just as they provide wrapping paper for dry drugs.

The burial of Mr. Scott Farley took place from his father's residence, in East Mayfield, this morning at ten o'clock. A large number of the friends of the family were present. The services were conducted by Elder E. L. Powell, of the Christian Church, and Rev. R. B. Garrett, of the Baptist Church.

The marriage of Miss Mattie Collins, one of the belles of Bourbon County, to Capt. J. A. Jackson, one of Mayfield's leading citizens, will be solemnized at the home of the bride's mother, near Millersburg, on Wednesday the 15th inst., at half-past one o'clock p.m. The BULLETIN offers its heartiest congratulations.

As a precaution against disease, cleanliness cannot be equalled, and, as spring is approaching, to insure absolute safety, it is essential that every individual citizen do all that is possible to assist the health officials in the sanitary arrangements for our town. Vaults, cess-pools, etc., should be cleaned now, and every effort made before warm weather arrives, to place our town beyond danger of an epidemic.

The BULLETIN has received a communication on the subject of the hog. We thank our esteemed correspondent for his kind intentions, but we are constrained to say it is a subject that no longer interests this paper. The people of this city have twice voted to keep the filthy beast in the town, and, deferring to their will, we do not in the future intend to try to place any obstacle in the way of gratifying their fancy.

THE Public Herald, printed at Philadelphia, is one of our most valued exchanges. Its mission in the past has been to ferret out and expose frauds, especially those who prey upon the public through advertisements in the journals of the country. The Herald has been in the habit of keeping stanch an abiding adviser in the country, which has been of great service to the newspapers in enabling them to steer clear of the gentry. The Herald is doing good work and deserves all the good words that can be said of it.

PERSONALS.

Mr. Simon Nelson, of Cincinnati, is in the city.

Master Thomas J. Farley, who has been very ill, is better.

Captain George W. Tudor returned last night from New York.

Hon. Henry L. Stone, of Owingsville, is about to remove to Louisville to practice his profession.

Bishop T. U. Dudley, of the Episcopal Church, will preach at the Church of the Nativity on Sunday, May 24th.

The Georgia Historical Society has elected Hon. George W. Ranck, of Lexington, as a corresponding member.

Rev. J. A. Henderson left on the Handy to-day to hold Dr. Walker's quarterly meeting for the Vicksburg circuit.

Mr. James S. Escott, of Louisville, and Miss Lettie Lemon of Newport, were united in marriage at the residence of Mr. Barry Taylor, a brother-in-law of the author, at the latter place, on the 8th instant, the Rev. Thomas B. Webster, of Texas, officiating. Only the relatives and very intimate friends of the families were present. Miss Lemon, who is a niece of Mrs. J. J. Wood, of this city, is one of the brightest and most attractive members of Newport society, and Mr. Escott is a member of a well-known and honored family of Louisville, and a rising young business man. Mr. and Mrs. Escott will reside at Louisville.

The Enquirer says that McMillen, who murdered young Cummings at Newellport a few days ago is completely broken down over the tide of public opinion against him, but still he has a few friends who are sticking to him. His daughter who caused the tragedy, is described as not at all comely and of dissipated appearance. She is short and stout, of dull conversational powers, and with nothing attractive or fascinating about her appearance. She is short and stout, of dull conversational powers, and with nothing attractive or fascinating about her appearance. She is short and stout, of dull conversational powers, and with nothing attractive or fascinating about her appearance. She is short and stout, of dull conversational powers, and with nothing attractive or fascinating about her appearance.

A Chicago belle to her neigborhood finances. Egbert went down on his knee like a true knight, but as he had lost his eye-glass his vision was a little uncertain. "Is this your foot?" he inquired. "You bet," she said. "I'm pawlon, I—I thought it was the longer." Egbert is now engaged.—[Texas Sitings.]

TOPICS OF THE TIMES.

THE HERO OF APPOMMATTOX RESTING QUIETLY AND SLEEPING.

War News in New York Creates a Panic.
Wheat Booms with a Vengeance.
Struggle for the "shorts"—National Affairs and News Notes.

New York, April 10.—Gen. Rosser, a famous confederate cavalry leader, called at the house to inquire after Gen. Grant and express his sympathy. He was invited up to see the general and paid his respects in person, returning with a present.

On leaving the night about 10 o'clock, Gen. Baden said that no danger was apprehended by the household and they were preparing to retire for the night. No bulletin has been issued. The house is still quiet and there is no indication that the general has awakened.

"Gen. Grant slept eight hours during the night and awoke feeling much refreshed. His pulse is 64, reasonably full, and temperature normal."

Signed. "SHRADY." At 7 o'clock, after a sleep of nearly eight hours, Gen. Grant awoke, and was suddenly conscious of a sharp pain in his right side. Dr. Shrady and the family retired soon after the patient dropped asleep, and did not rise until breakfast time. For the past forty-eight hours the general has slept only on his reclining chair, as he prefers it to his bed, and has been unable to listen to the monotony of the night watch. Shortly after 9 o'clock Senor Romero called and remained some time, and upon coming out said the ex-president's condition was considerably improved.

Dr. Shrady said he has no fears of an immediate return of the hemorrhage. That is the only danger just now which threatens the patient's life. Dr. Shrady considered it unnecessary to call for medical aid, as immediate medical attendance is unnecessary, and after giving the nurse some directions he left the house, saying he would not be back until four o'clock in the afternoon, in time for the doctor's rounds, which are at 3 p.m. This is the first time the doctor's have left the general's side for over two weeks. The general is now doing quietly under the influence of an analgesic.

Exciting Scenes.

New York, April 10.—The scene at the new produce exchange at its opening was one of the wildest excitement. The news of the capture of the rebels at Afghanistan and the almost inevitable declaration of war against Russia by England created the most rapid upward movement in wheat the new exchange ever witnessed. A large number of men who were short on May wheat resold it at a premium of 15 cents, and were badly squeezed in covering shortages. May wheat closed yesterday at 93¢. This morning it opened at 94 and jumped last evening a time up to 101½, an advance of 7½ cents.

Short interest was large and the pronounced dull movement created the greatest panic among the bears that has occurred for months. No failures are yet reported, but it is believed that many small brokers will go up or down on account of the war news from Europe.

About midday there was some selling to realize, causing a fractional reaction, but it has since been more than recovered.

Reynolds' Spanish Mission.

NEW YORK, April 10.—Word has reached the Spanish Legation here that the much American commission is ill on his way home with Mrs. Reynolds, whose health has broken down. Some of the Missourians here assert that when Mr. Foster has completed the trip to Mexico, where he is to meet Gen. Reynolds will be named as his successor. The commissioner has a warm friend in Senator Vest, who is said to be at the head of the Missouri gentlemen who are urging Gen. Reynolds for the Spanish mission.

Hurries Surry Dead.

WASHINGTON, April 10.—A dispatch from Commander Maran, dated Liberton, April 8, confirms the death of Barrios and the defeat of his army. The Nicaraguan troops entered Honduras, routing the enemy who retreated to the coast. The battle of La Ceiba was made a formal alliance with Salvador. It is expected that will end the trouble without another shot. Probably both armies will march on Guatemala city. The situation at Comayagua is unchanged.

A Pittsburg's New York Venture.

PITTSBURG, April 10.—G. L. Whitney, of this city, has purchased the Bijou Theatre, in New York, and will open it next week. He came possessor of the property in securing a loan of \$125,000 from the Metropolitan life insurance company, and advancing that amount to the builder of the theatre, Mr. James, who raised the necessary funds for its completion. General Barton will manage the new concern.

Both to Blame, Both Suspended.

BALTIMORE, April 10.—Steamboat Inspectors Saville and Valentine gave their decision in the case of the collision between the steamer Belpointe, of Boston, and the steamer W. H. Smith, of New York. They agreed of the opinion that Captain Lethbridge of the Frothingham, and the pilot, E. F. Small, of the Berkshires, are equally to blame. Both parties are suspended as master and pilot of steam vessels for ninety days.

An Orphan's Fatal Fall.

BALTIMORE, Md., April 10.—Leon T. Billmeyer, aged seven years, fell over the baluster from the fourth floor of his home, the friendless in this country was so deeply injured that he died. The little fellow's mother was obliged to place him in the institution because she had to work during the day for her support. She states that her husband Oliver Billmeyer deserted her some time ago leaving her penniless.

A Renewed Controversy.

MICHIGAN CITY, Mich., April 10.—Mrs. John Wunderhofer, layed from the stone arch bridge into St. Anthony's falls and disappeared beneath the ice. Her husband was formerly a well-to-do resident of Minneapolis, but lately has been past trader at Sisseton agency. There is no record of his having been deranged, and her suicide was undoubtedly caused by insanity.

Ferguson's Daughter.

SAN ANTONIO, Tex., April 10.—A match pistol shot between Dr. Carver and A. H. Penrose, the San Angelo cowboy, for \$500 a side, one hundred yards, thirty yards to the mark off. Penrose won, price \$0 to \$1.

CARPETS, OIL CLOTHS, and WINDOW SHADES.

Cotton Chain Ingrains, Cotton Chain Extra Supers, all-wool Extra Supers, and Tapestry Brussels.
